Introduction

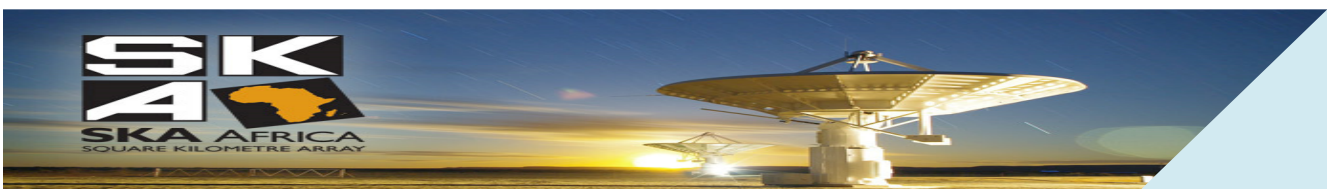

Kareeberg Municipality is situated in the western side of Pixley ka Seme District Municipality in the Northern Cape Province. The district consists of nine municipalities of which Kareeberg is the smallest.

The municipality was established through the amalgamation of Carnarvon, Vanwyksvlei and Vosburg, as well as a large area of rural farms. The administrative centre is located in Carnarvon with Vanwyksvlei and Vosburg being rural service centres.

The landscape is typical Karoo with an annual average rainfall of 260mm and an annual evaporation of 230mm. There are no constant rivers running through the municipal area and all towns are dependent on ground water.

Local economic opportunities are sadly lacking in the municipal area with the declining economy being largely based on sheep farming. With an unemployment rate of approximately 25%, most of the residents rely heavily on the provision of free basic services.

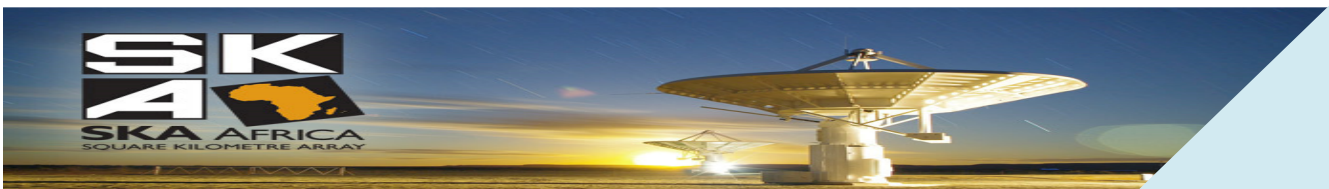

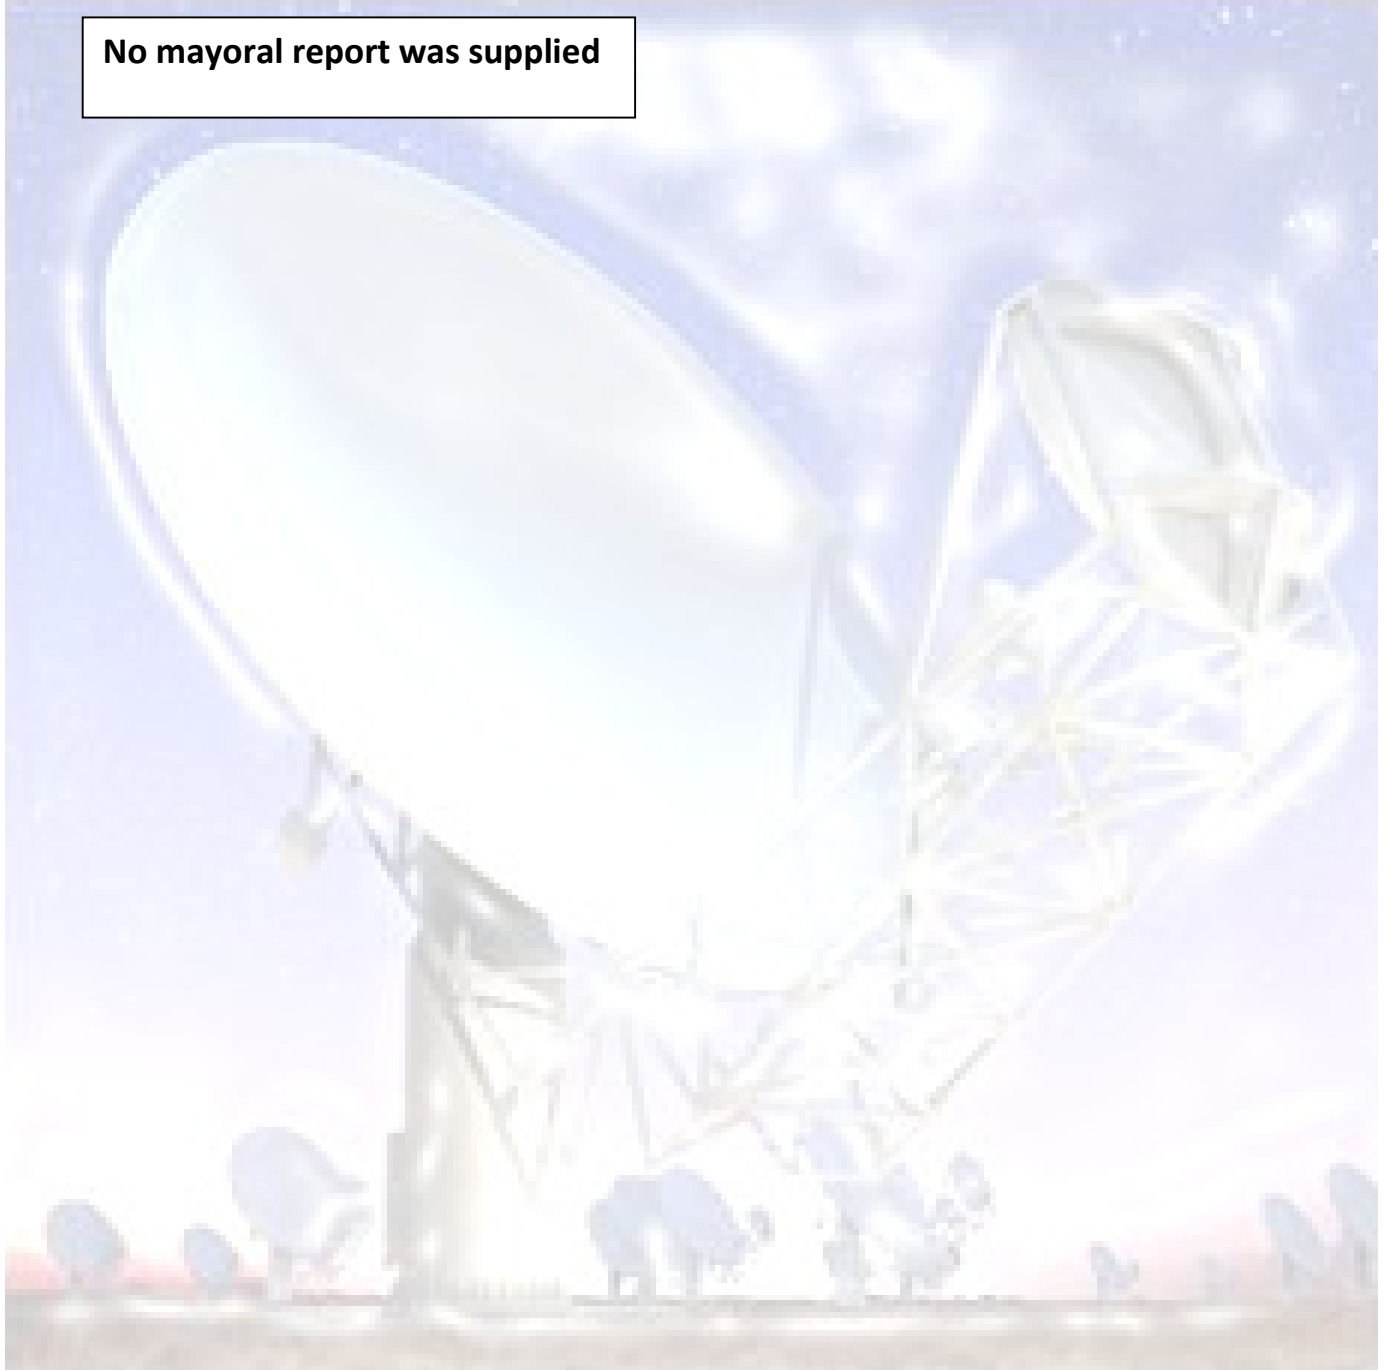

Population growth has been positive by $\pm 2.07\%$ over the last ten years. The migration of economically active residents to greater urban areas has a huge impact on the population growth. The total population of the municipality is 11 673, which constitutes 3 222 households. 797 households (population 2 710), are residents in the rural areas whilst 2 425 (population 8 963) resides in the urban areas.

1. PART 1 – IN-YEAR REPORT

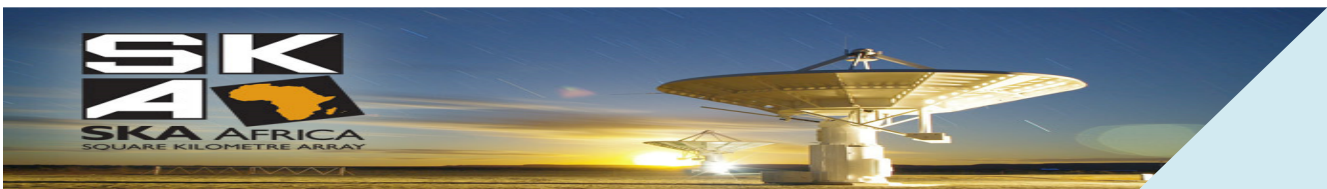

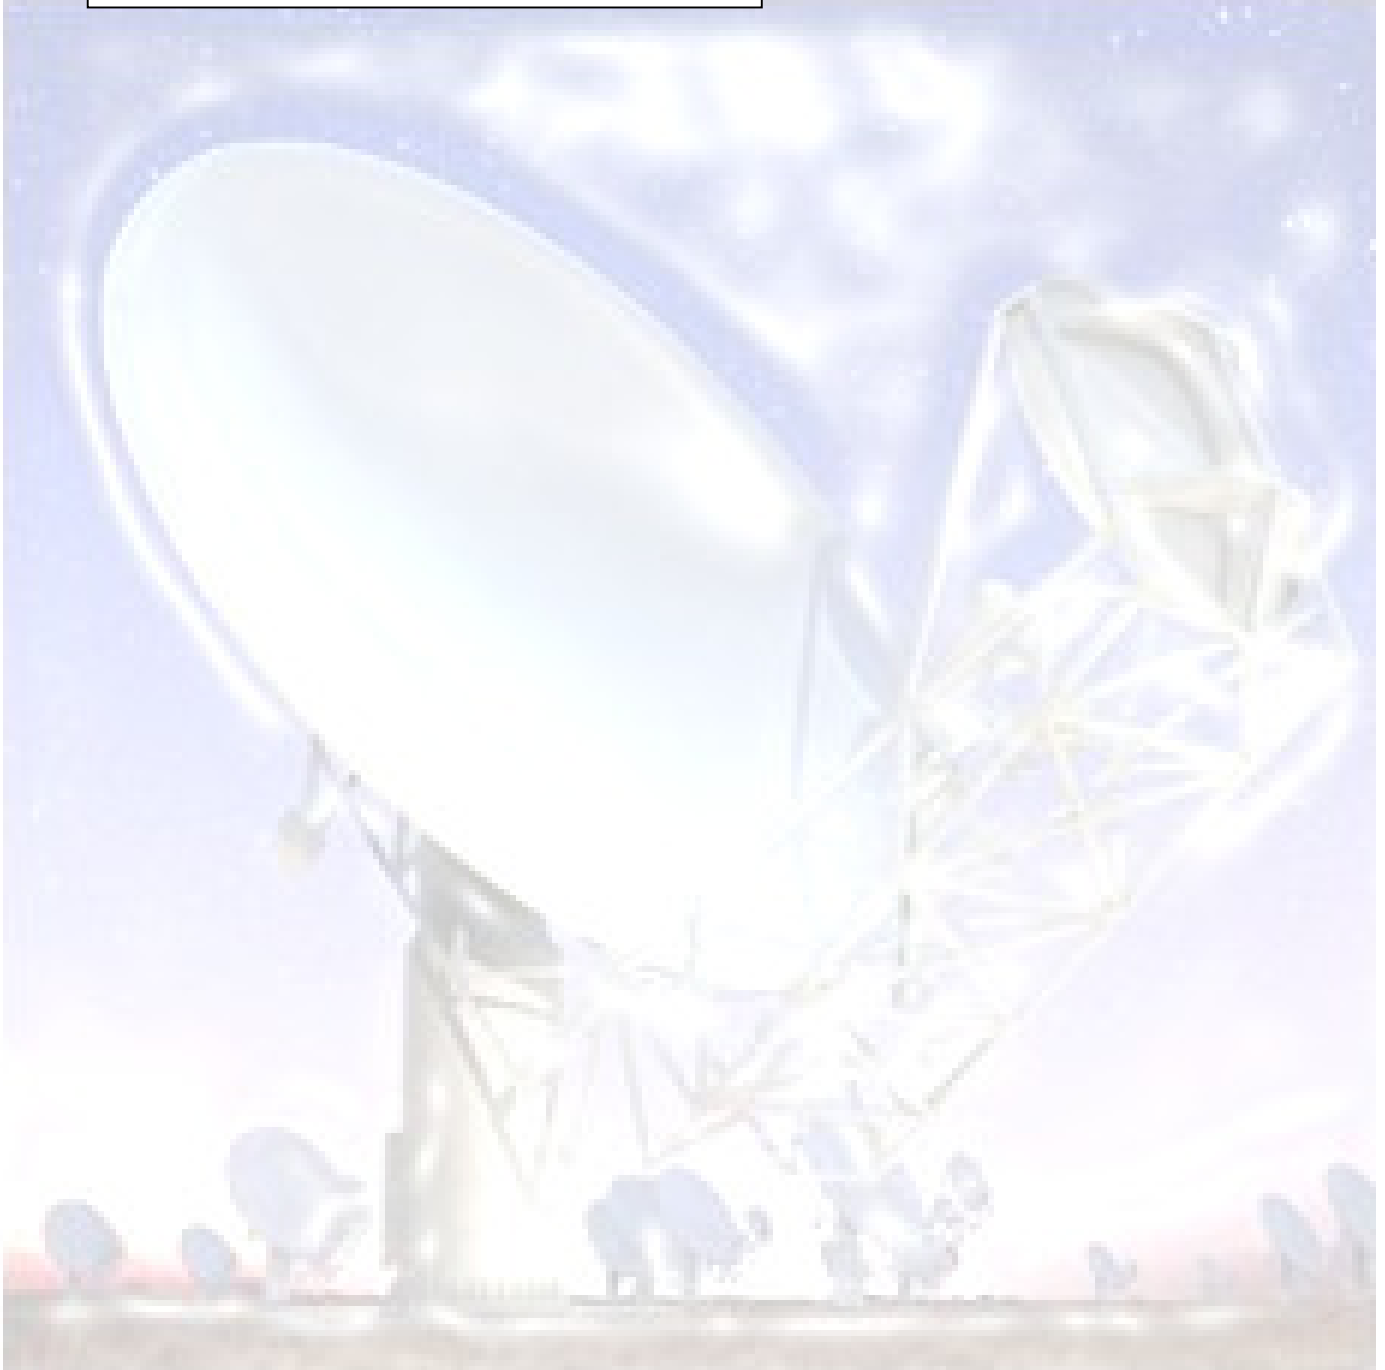

1.1 Mayor's report

No mayoral report was supplied

1.2 Council resolutions

This report will not be tabled in council

1.3 Executive summary

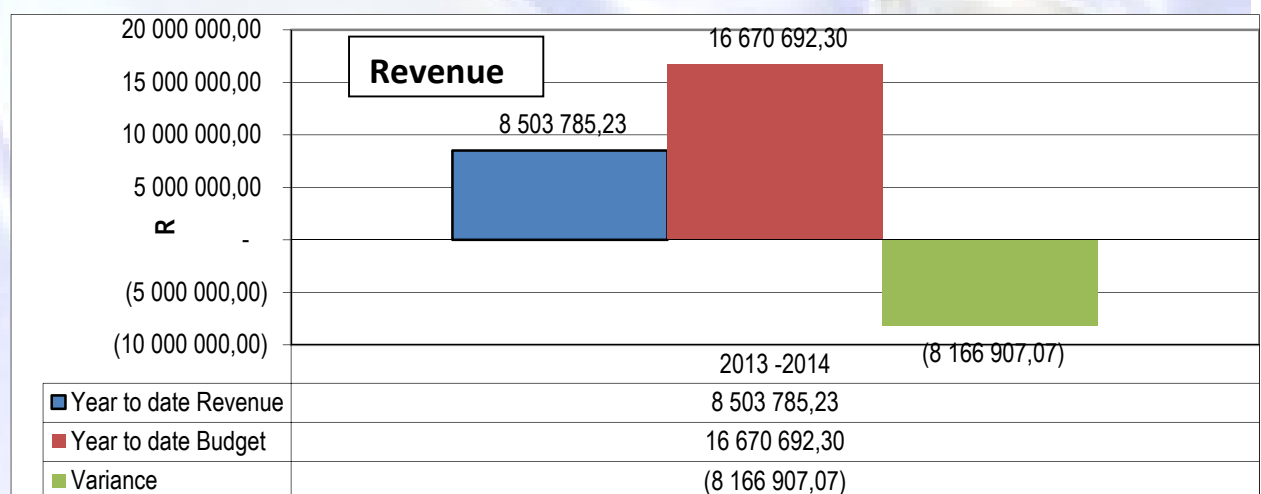

1.3.1 Introduction

The municipality has a total deficit of R 1.445million for the financial year thus far. This is due to the fact that property rates have not yet been levied because of system rectification. The property rates will be levied during September.

1.3.2 Consolidated performance

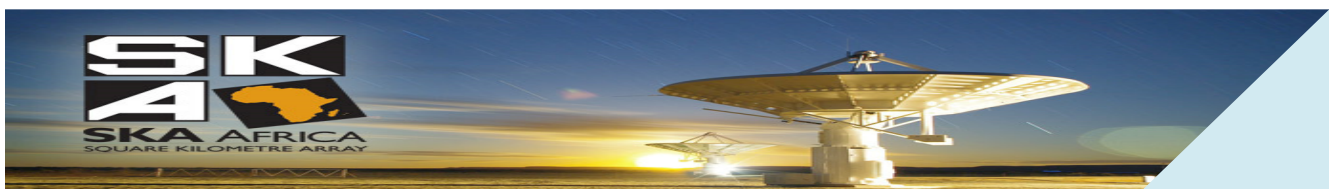

Revenue by source

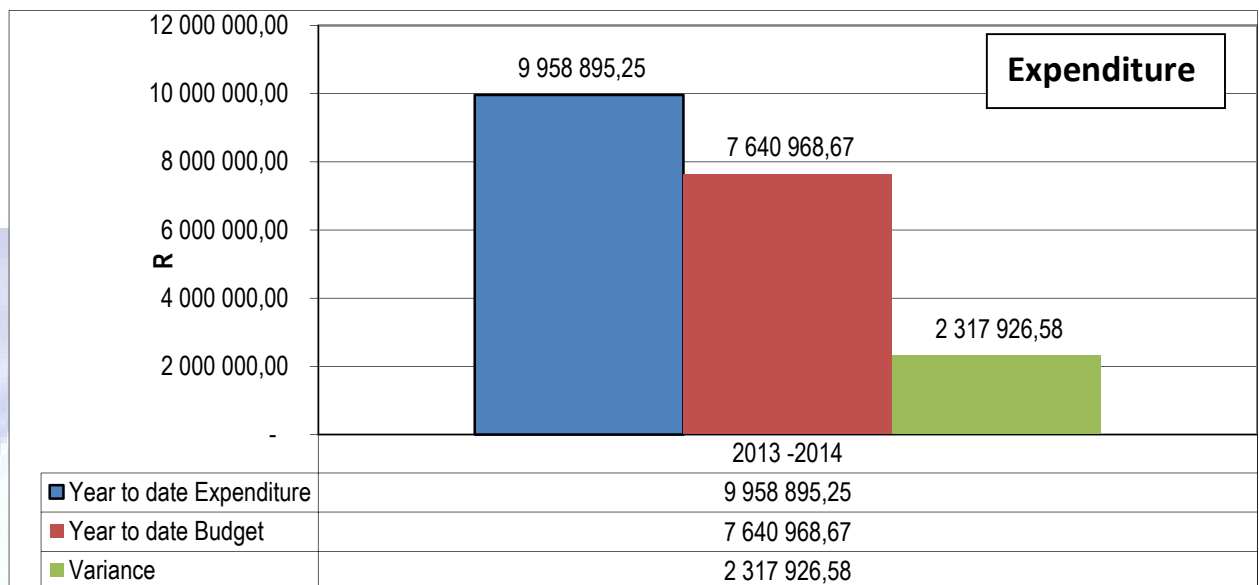

Revenue is underspent by 49% (R 8.1million) for the year. This is due to the fact that conditional grants expended, are only recognised as revenue in June 2014. Property rates have not been levied either. The following graph indicates the generated revenue to date:

Operating expenditure by type

Expenditure is overspent by 30% (R 2.3million). This is due to equitable share being recorded as expenditure when received. The situation will normalize as the year progresses. The following graph indicates the expenditure incurred to date.

Capital expenditure

Tenders for the most capital projects are advertised and will commence before mid October. The progress on capital projects will be highlighted in table CS 1.

Cash flows

The municipality has a positive cash flow for the year to date of R 8.9million. This can be attributed to the receipt of conditional grants and equitable share.

The following table indicates the funds available for working capital requirements:

Reconciliation of available cash and investment resources

1.3.3 Material variances from SDBIP

The service delivery and budget implementation plan will be reviewed intensively at the end of the first quarter.

1.3.4 Remedial steps

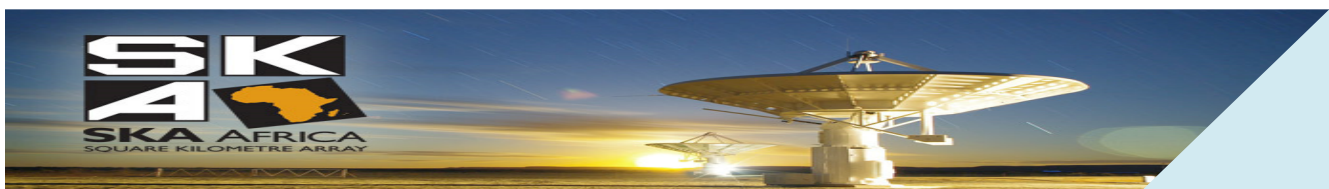

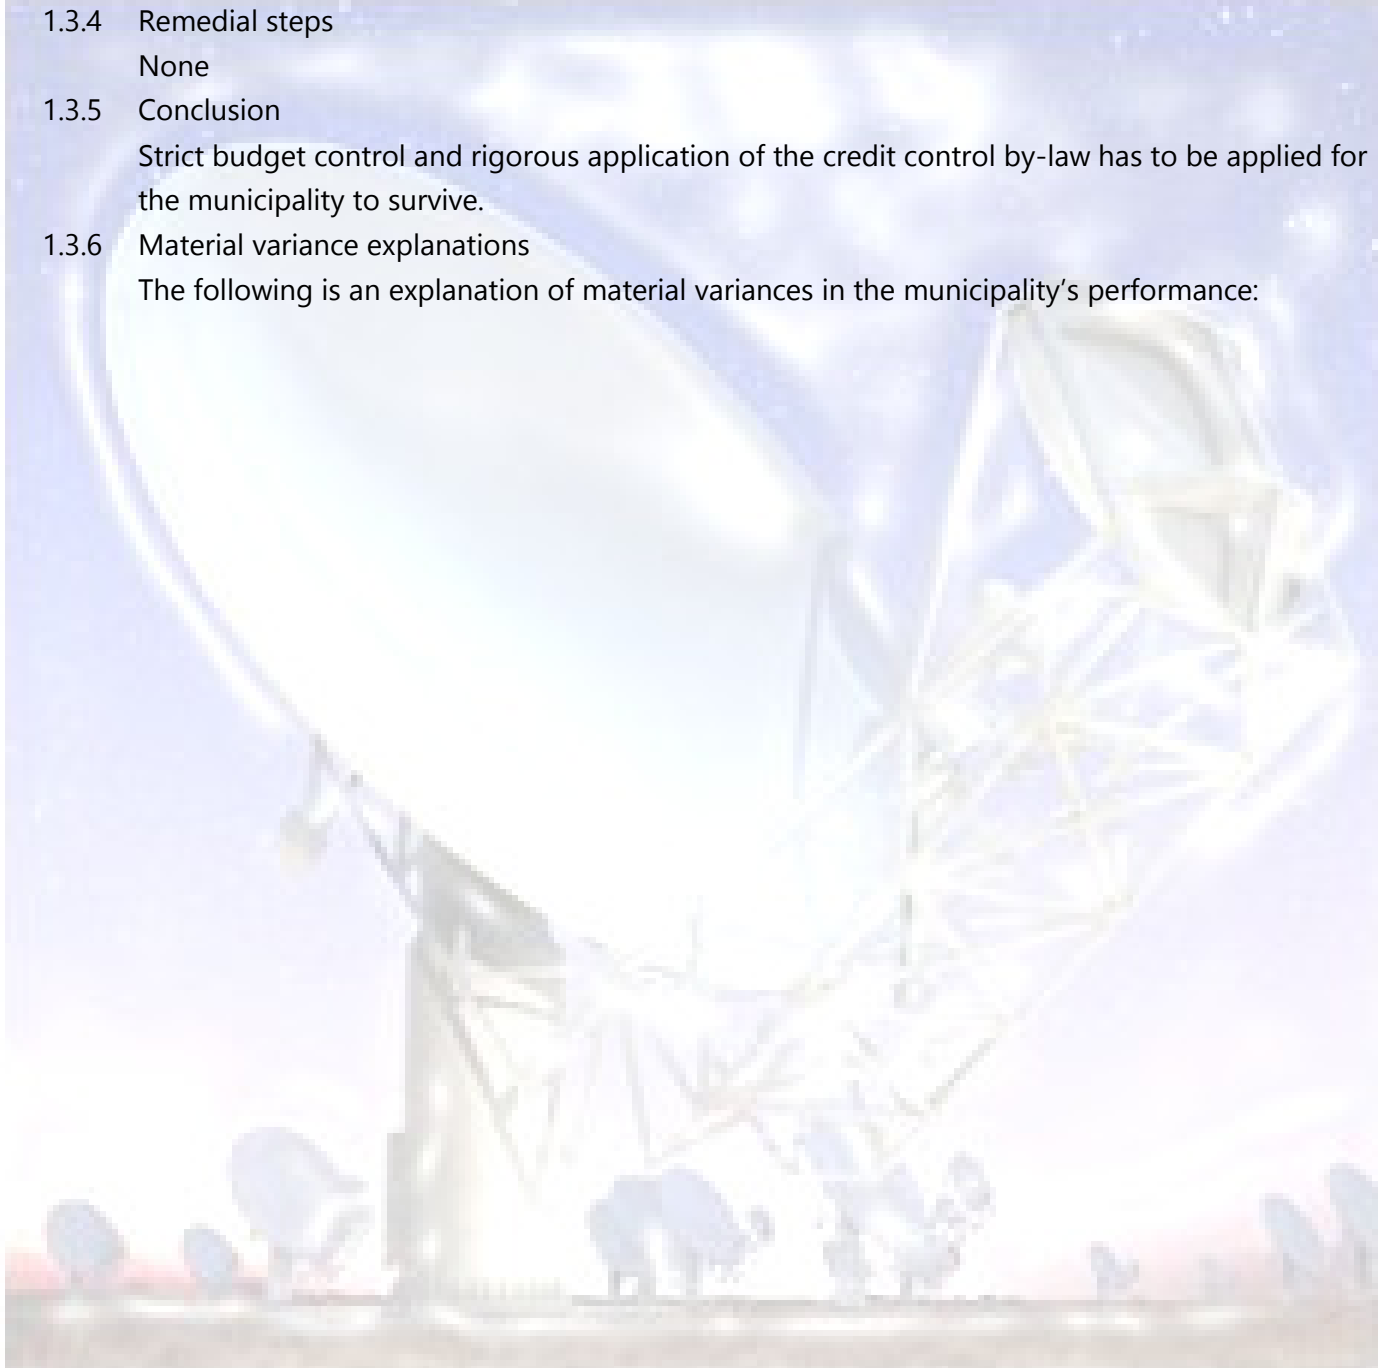

None

1.3.5 Conclusion

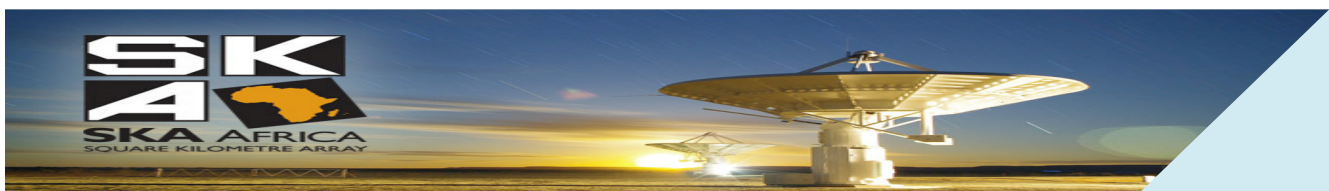

Strict budget control and rigorous application of the credit control by-law has to be applied for the municipality to survive.

1.3.6 Material variance explanations
